

Police Update

Date: 09/25/2007

Contact: Corporal Shelhorse (804) 798-1227

**Ashland
POLICE**

Thomas A. Clark, Chief

The Ashland Police Department is proud to announce that we have gone on-line with a new and improved website. The website has been developed to be interactive and user friendly for several reasons. We wanted to provide the community with a resource through which they could rely on for up-to-date information, safety tips, community events, crime alerts, or even report and accident information. The website allows you to view incidents and incident locations by viewing them on an interactive map of Ashland. There is a section for recent traffic accident locations, monthly traffic safety statistics, and allows a citizen to request radar and further traffic enforcement to be conducted in a specific area. Businesses can submit property check forms for their property and submit them on-line. There is a section where citizens may submit crime tips and other information anonymously concerning their community. On the home page, all persons interested in a challenging and exciting career as an Ashland Police Officer can download and submit their application on-line. We would like for everyone to visit the site by clicking below!
