Thomas A. Clark, Chief

Soliciting Alert

The Ashland Police Department has received several complaints in reference to individuals soliciting work without a permit. Multiple victims have stated that these individuals offer to seal their paved driveways at a pre-determined price, but after the work is completed, the individuals increase the price. These subjects DO NOT have a license to solicit business in Ashland and it appears that they are attempting to take advantage of the citizens.

If you encounter these individuals, please contact the Ashland Police Department at 798-1227 or dial 911.
