The Ashland Police Department recently received several telephone calls from citizens asking about the legitimacy of telephone solicitations from any organizations identifying themselves as The Ashland Police Protective Agency. **The Ashland Police Department has not authorized anyone to solicit on our behalf.**

In addition, we have not been able to find any legitimate business with that name. We have tried contacting the solicitor with no success; therefore we are recommending the public not respond to these solicitations.

We regret any inconvenience this has caused and appreciate your understanding. If you have any questions in reference to these calls or if you receive any of these calls, please contact the Ashland Police Department at (804) 798-1227.
